

## This Year

We launched our core values program together with a new responsibility-based discipline model, introduced digital citizenship, reduced class sizes and increased campus security. Each of these required significant investment.

## In 24-25

To continue our Student Centered Approach to Torah Education, we need to compensate our staff appropriately and hire new talented faculty to meet the needs of our growing student population.

To make all of this happen, we need your support to follow the enrollment timeline.

# Enrollment Timeline
